The music of Fatamorgana is a synth-infused daydream with the soft, lilting vocals

by Patrycja in stark contrast to her other musical incarnations. Their debut full-

length Terra Alta was released in early 2019 via La Vida Es Un Mus. As Patrycja de-

The importance of location in Fatamorgana's music is easy to understand when you think of the band residing in Barcelona, Spain which sits on the coast of the Mediterranean Sea, near the Costa Dorada ("Golden Coast"). This is a city home to one of the busiest ports in Europe and is known for incredible architecture and a rich connection with the arts. With such a lush and culturally significant setting, the city they currently call home is, "A mix of people from many different places and this cultural mix is reflected in the alternative music scene. It is varied and always in motion." Patrycja goes on to explain her creative influences, saying, "After touring and visiting Japan with my other band a few years ago, I came back deeply influenced by some aspects of its culture and philosophy. That trip allowed me to think more about different ideas and aesthetic categories, like for example the concept of 'wabi-sabi' which inspires me a lot. This fascination has its effects on Fatamorgana's music."
